Mac OSX 10.8 (Mountain Lion) has been released. Some sources indicate the update could take from 15 to 60 minutes to install. Your mac may not be able to upgrade or may have reduced features. You can check at: <http://www.apple.com/osx/specs/>

Will 10.8 be followed (maybe) by the iPad mini?

450k ids & passwords at Yahoo were hacked and stolen. You can check on yours at:

Two sets of researchers in Europe are in the process of developing bionic eyes. They are designed to help people that have lost sight related to retinal problems. Human trials are scheduled for next year.
